

## TECHNICAL SPECIFICATION

### 3D MATTE

It is a calendered PVC film POLYMERIC with special texture – sandblasting available in various colors. Paper liner coated siliconized and repositionable acrylic adhesive.

**Indication:** Designed for protection and customization of vehicles, can be used for clipping. Good stability on smooth surfaces and curves, resistant to light impacts.

**Physical Property:** Front: PVC compounder 100µm (microns).  
Liner: Coated siliconized paper 150 g/m<sup>2</sup>.  
Adhesive: acrylic repositinable 17 g/m<sup>2</sup> (± 2g/m<sup>2</sup>).

**Supply and**

**Durability:**

- Material packed in box and cardboard reels with a width of 1.38m.
  - The 3D matte Black is also available in width of 1.22m and liner 120g/m<sup>2</sup>.
  - Expected durability: five years (Exceptions: metallic colors – one year; silver and graphite – six months). In horizontal this durability is reduced to 30%.
- Important: durability can be extended or decreased as a result of application techniques and conservation.

**Storage:**

Store at temperatures between 20°C and 30°C, relative humidity between 40% and 50%.  
Validity: two years from the date manufacture if packed in original packaging and in an appropriate place.

**Recomendations:**

- Apply in smooth; flat surface previously cleaned using isopropyl alcohol avoiding contact with impurities, oils or any other chemical.
- Do not use in places with ripples, rough surfaces and/or porous
- Excess solvent usage reduces the durability of the product of time.
- Install immediately after cutting.
- Once applied to avoid aggressive products and constant friction.

- The above data are based on laboratory tests that Alltak believes to be reliable and are provided for informational purposes only and do not constitute any form of guarantee.
- Due to diversity of potential influencing factors during application and use of the adhesive film for special applications, we recommend customers to conduct their own testing.  
Note: Our products are not part of the production chain of auto parts and building materials.
